THE PROBLEM

Experience isn't the problem. Practice is.

92%

of people are afraid of something in a job interview

Harris Interactive for Everest College, 2013 ↗

67%

of hiring managers are less likely to hire you if you avoid eye contact

CareerBuilder survey, 2,500+ hiring managers ↗

30

studies agree: the more nervous you are, the lower your interview score

Powell et al., meta-analysis, 2018 ↗

THE SOLUTION

One AI. Six superpowers.

01 · INPUT

Your real job ad

Questions they'll really ask

02 · VOICE

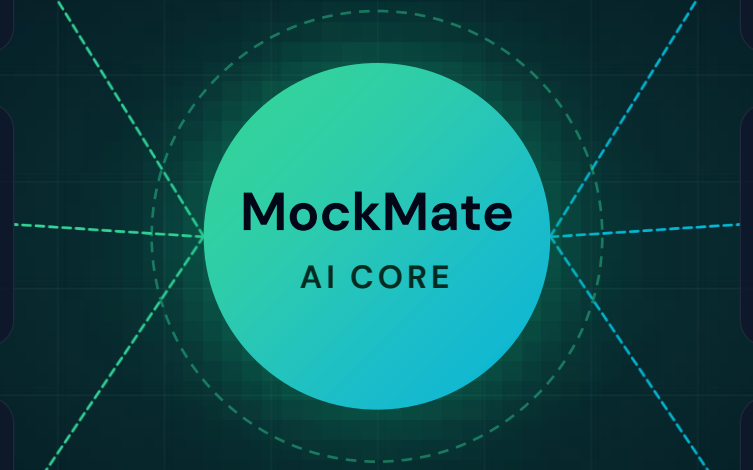

A real conversation

Talks, listens, follows up

03 · SCORE

Instant score

Out of 100. Hire or not?

04 · REWRITE

Better answers

Your answer, said like a pro

05 · VISION

Live body language

Eyes, smiles, nervous moves

06 · COACH

AI coach

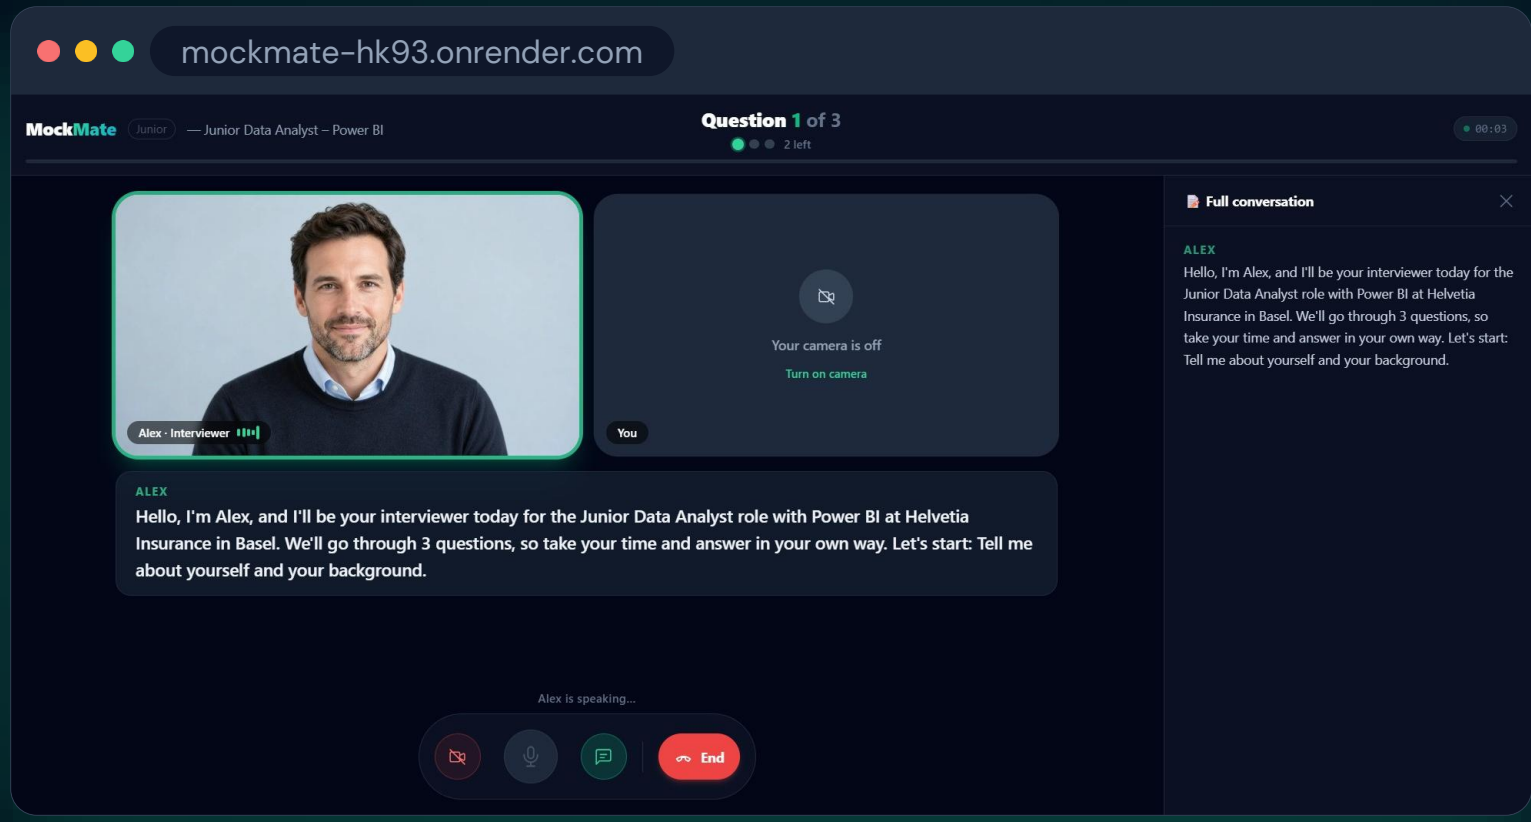

Knows what to practise next

01 · THE INTERVIEW

Feels like a real interview

Alex asks questions out loud, listens to you and asks follow-up questions.

Questions come from the job ad and your CV.

02 · FEEDBACK

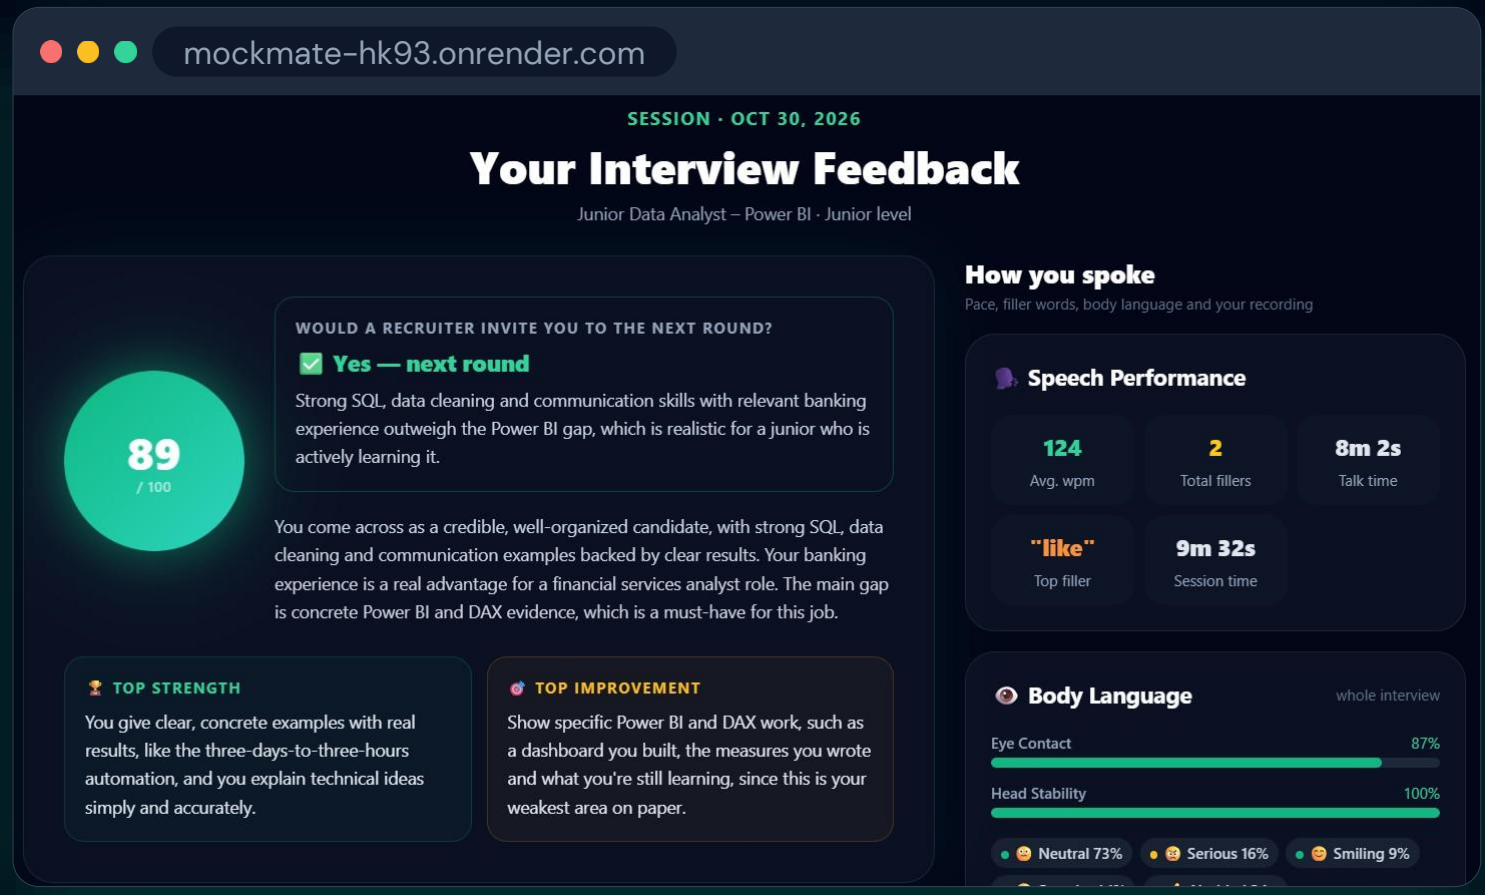

Know exactly how you did

★ A score out of 100

✓ Would they invite you back?

✓ What went well, what to fix

✓ Your answer, rewritten better

03 · BODY LANGUAGE

See how you come across

Your camera checks eye contact, smiles and nervous moves. Warnings show up live, and you can watch your recording later.

👀 Eye contact | 😊 Smiles | 👍 Nods | ⚠ Live warnings

🔒 The video stays on your computer.

04 · PROGRESS

Watch yourself get better

Your skills over time, and an AI coach that tells you what to practise next.
